

# **IFAM** International Folk Art Market

## International Folk Art Market Lost and Found Procedure

---

Any item found during the International Folk Art Market, thought to be a lost item, should be immediately turned into the Information Booth at the Market. The Workforce members at the Information Booth will oversee any items turned in, for the duration of that Market day. At the end of each Market day, any items not claimed from the Information booth will be secured in the Visitor's Center overnight and returned to the Information Booth for possible collection the next day. After the completion of the Market, Lost and Found items can be claimed through the Museum of International Folk Art.
